## What we do

We provide the purchaser an opportunity to help a friend or loved one afford proper medical care. Whether it is helping them with their co-pay, medication, medical equipment, general or cosmetic surgery your medical gift card gift will support a meaningful cause.

These gift cards are affordable and reloadable online.

## Who we are

As the owner of Medical Gift Cards, I wanted to give a gift of healthy living to a loved one but was unable to find a resource. I set out to make medical care gift giving healthy, affordable and fun. Having worked in the medical field I understand the importance of taking care of one's health. With the mass amount of gift cards in today's market, you would not find one exclusively offered for medical care, thus the Medical Gift Card was born.

I am a single woman, with the heart and mind to grant wishes for a healthier happier life.

## Who we are Cont'd

And with the help of the Internet and the gift card industry, I coupled with the health care industry to bring about a healthier nation. Fulfilling a need, with your help is who we all are.

I pride myself on trying to make a significant difference in life and in this case I have enabled all others to do the same.

Through Medical Gift Cards, you can help with the birth of a child, give a teen or adult that smile they long for, while making sure grandma and pa prescriptions and bed pans are covered at no expense to them, and the need for any surgical procedures, be they general or cosmetic.

...Why not grant a wish?

This business is about giving a gift of hope to someone in need.

Give the gift that matters.
